New foreign currency denominated sovereign debt securities servicing mechanism

August 2022
New external sovereign debt servicing mechanism

In light of recent events foreign financial intermediaries refuse to cooperate and carry out their functions. Therefore new foreign currency denominated sovereign debt securities (Eurobonds) servicing mechanism was established¹:

- The Ministry of Finance, in accordance with the Eurobonds issue documentation, will ensure the transfer of funds to the Payment (Fiscal) agent for Eurobonds, whose functions are to be performed by the National Settlement Depository (NSD), in accordance with Russian Federation Law (http://publication.pravo.gov.ru/Document/View/0001202206220017).

- In order to fulfill sovereign debt obligations, the Ministry of Finance will transfer the Russian roubles to the NSD in amounts equivalent to the amounts of the coupons and/or principal in the currency of the Eurobond.
